Dear Brother:--

A few days ago I received the inclosed letter from Bro. Bollman. I do not think I can improve the situation any by adding anything to this, but send it right along as it is. Now, pardon me for saying it, but it seems to me that when inquiries of the kind that are here mentioned are sent in, they should receive some kind of reply. Of course I do not know the nature of the letter sent you by Bollman, and only speak of this in a general way. If you write him I wish you would send me a carbon copy of your answer, and I would like to have this letter returned anyway.

Respectfully,

*J. E. White*
