Text in large type, self-pronouncing. Notes and comments at bottom of page. Fully illustrated. 10 full page half-tone inserts on tinted plate paper. Prices and bindings announced later.

Story of the World's Redeemer.

Child's Life of Christ. Will be issued in several languages. Large type, profusely illustrated with beautiful, colored, half-tone engravings. Prices and bindings announced later.

Story of the Apostles.

For the Children and Youth. Follows the story as given in the book of Acts. Profusely illustrated with beautiful, colored, half-tone engravings. Prices and bindings announced later.

The Man that Rum Made.

A Temperance Book for Children and Youth. Begins with a series of colored illustrations depicting the downward steps of the drinking man, and the advancing ravages of alcoholic drinks, in verse, after the style of "This is the House that Jack Built." Following this is a well-written story, in five chapters, describing the downward steps from the innocent child to the drunkard in the gutter. Very attractive and effective. Prices and bindings announced later.

451 Holloway Road, London, Eng.

Christiania Publishing House,

Akersgaden 74, Christiania, Norway.

Dear Mother:--

I have your letters of April 3rd and 23rd. In regard to the one mentioning the matter of Emma going to Battle Creek, I let her read it. She desires to do just the rught thing and so do I. But the situation is very peculiar. She will be compelled to go somewhere for a different climate during the hot weather. She could not feel contented to go clear to Cal. while I remain in the South. Michigan agrees with her. She has always done better in going from the South to Michigan than when she would go to either California or Colorado. In fact, Colorado does not agree with her.

The matter of finances is also a very great factor in the situation. I have never been where it seemed that I could do nothing in bringing financial relief as has been the case recently. There is a little light just now, but every dollar is required to take care of the most imperative matters. For the present she will stay at the farm, but when her sister goes to Mich. she will come down here, and break up housekeeping in the cuntry. We shall use only a few rooms in the city, and have some one come in each day to care for the work. This will be a great saving. Shall let Bro. Hare occupy our house in the country.

Mother -2-

if he desires to do so. You see there will be furniture there so he can step right in and go to living. He has consented to take up the food work if the Conference decides to undertake it. The matter will now be decided in a day or two, as the S.U.Conf. Com. is now in session in Nashville. But even if it is decided to undertake the work of the factory, it will be some time before money will come in for me. Yet if I know it is coming I can plan for it, and it will be easier to deal with others with that in prospect.

I have been much interested in reading of your trip to Lake County. Am glad you would take the trip. I think such trips as that do you good. I also wish that you could see our home in the country as it is this spring. We have been eating Asparagus ever since the last of March. For two weeks we have been having strawberries to our hearts' content. We have a large ~~fixk~~ field of black and red raspberries, and they are loaded with blossoms and young fruit. Last Sunday Bro. Hare and his wife were at our house, and were perfectly delighted with our place. They saw the rich green grass, and spoke of how good it looked, and said they did not have such green grass in Australia. They asked if it all dried up and lost its color in sommer. We told them it was green all summer. I took Bro. Hare out to our new orchard. The young apple trees had many apples formed on them. The pear trees had as much of a load of fruit as they could mature, the peach trees had about a quarter crop, as the frost had killed most of the buds, and the plum trees had lots of fruit. Bro. Hare was delighted with everything which he saw.

I then took them to the food factory, and he became enthusiastic with what was there. He considers it a great bargain. I hope there will be no hitch in selling it now, and I do not think there will be. Some had been saying that the oven was too large, but he said this was one of the most favorable features he had seen.

Mother -3-

My plan^y is to sell the food factory first if possible, and then to ~~adv~~ advertise the home place in the papers, and I feel sure it will go quick after the factory is sold. When this property is all sold, I will be in condition to go elsewhere, but not until. It has been my plan to keep up the home place in good shape, so that when any one comes to see it it will present an appearance that will be encouraging. It is hard to do this with all the other financial load that I am carrying, but it MUST be done somehow. The sale of my property depends upon it.

You mention in your letter our coming to California, and I surely would like to come, but at present I feel that I am in the turning of the ways so far as my work is concerned. I cannot rest yet. The hardest work of my life will have to go into the next few^y weeks or months. There are books to come out and but little money to do it with. I shall have to work harder myself. These books are essential to an income to bridge over the difficulties that I have to meet. I cannot stop. But I am glad to KNOW that the Lord has underneath the "everlasting arms," and that He is blessing in the work I am trying to do in His cause. At present I am working for the colored church in Nashville. This has been the hardest proposition in the South. Sheafe, and others who have had a burden for the equality of the races has been here, years ago, and has filled the members with his poison. the bulk of the membership has been in rebellion against the white work among the colored people. Last January this church was put under my ~~xxxx~~ charge, and I have been pressing the matter of a different state of feeling and influence in the church. The Lord has helped me, and last Sabbath the whole membership pledged themselves by testimonies and afterward by vote to drop all that kind of thing and unite in the work of saving souls.

Mother -4-

Now, I feel that the advice you gave me some months ago was good, that I stay right here in the South till my influence became strengthened. I believe that this is now being done, and I am seeking the Lord for wisdom so that every act and work shall be right so that no occasion for fault can be found. I realize as I never did before that we are nearing the end of the history of the world. I must live right, and be right, and be casting right influence wherever I am.

Now, as to your letter of the 3d of April, I will say first, that I am not pleased with the idea of Emma going into the family where Frank Belden lives, but I cannot see anything else at present. I know she will not consent to go to California and leave me here. There would be no use to try to get her to do this. She is true and loyal, and she and her sister are greatly attached to each other. The surroundings of that nature are more to Emma now than is climate. She will stay with me until the weather compells her to go.

Now as to going from Tennessee, I am willing to go whenever my work is done. The Lord can open the way in his own good time. I believe the time for me to make rash moves should be in the past. I have sinned in doing it. I now know my mistakes, and I cannot go over such ground again. My strength is now in waiting for the opening providence of the Lord, and not to go on according to my own ideas, and expect the Lord to stand by and bring matters out right. I have spent many sleepless hours in ~~grief~~ grief and sorrow for the mistakes I have made. The Lord has prospered me, but it has been putting my harvest into a bag with holes. I want to get down to the simple life and bind in my desires to undertake everything that appears good. I know I have grieved you many times by my course in this respect, and I confess it to you with sorrow. The Lord can work for me when He sees that I have learned my lesson. But He had to bring me through the deep waters of affliction and distress and difficulty before I could see my real condition. But the Lord has not forsaken me, and I praise Him for this.

In much love,
Your son,

J. White
