March 14, 1909.

Elder W.C.White,

Sanitarium, Napa Co., Cal.

My dear Brother,---

I know you will be anxious to have the report of our committee with reference to "Past, Present, and Future." Various members of the sub-committee went into the matter quite carefully, and prepared a rather exhaustive report. Brother Reavis was secretary of the book committee at the time, but was taken sick, and so the report was delayed. I enclose a copy of the report as rendered by Brother Snow, Secretary Pro Tem., and as this goes into the matter very fully, it will not be necessary for me to enlarge upon it. I may say that I concur in the criticisms and suggestions made, and was much disappointed when I came to read the book to find that there were so many things in it which were open to criticism.

I trust both you and J.E. will understand that there is nothing but the kindest of feeling on the part of those who have examined the book, and that all were sorry not to be able to report favorably.

Yours very truly,

(Signed) S.N.Curtiss.
