Dear Brother:--

I did hope to leave for the Pacific Coast tomorrow but developments in registering tint work for Past, Present and Future make this impossible. The task on this job is something tremendous and all I can do is to stay over another week. I now expect to start the first of next week sometime. Will write later giving more definite instruction when I will be, from place to place.

My intention is to spend one day with Sutherland and Magan at Memphis, one day at Vicksburg, Miss. looking over the school carried on by Murphy, then run up to Jackson and see the school carried on by Rogers, from there to New Orleans, then up to see Rennings at Alamagordo, N. M. then to Loma Linda and Anaheim, then to Mountain View, and St Helena. Will try to keep you posted as to my movements as soon as anything definite is settled.

As ever your brother,

J. E. White
