Dear Sirs,

I've been doing some study and research into church discipline because it applies to several of our church members. In 1 T 215.1 there is a statement about a Mr. "E". I was told that the discipline resulted from a homosexual experience. I would like to know what it was that caused the stern condemnation. Thanks, this information will help us in a decision within the local church.

In Christian loving concern,

*Robert R. Davidson*
