

22-E-1

NEW ENGLAND SANITARIUM

A MEDICAL AND SURGICAL
INSTITUTE

OF PHYSIOLOGICAL THERAPEUTICS
OPEN ALL THE YEAR.

Melrose, Mass., Aug. 29, 1911

Clarence Crissler,
Sanitarium, Cal.

Dear Brother:

We are told that in an unpublished Testimony, dated Aug. 30, 1896, the following statement is made: "The question of health reform is not agitated as it must be and will be. A simple diet and the entire absence of drugs, leaving nature free to recuperate the wasted energies of the body, would make our sanitariums far more effectual in restoring the sick to health".

M. 732-296.

We would very much appreciate your telling us if this statement is correct. If you have an entire extra copy of the Testimony, we would appreciate it. However, do not trouble to write one purposely for us.

Enclosed find stamped envelope for reply, for which we thank you very much.

We suppose you will reply to ours of July 3rd in due time.

Sincerely yours,

JGW/DML

J. G. White
