Associate Secretary
General Conferance of Seventh-day Adventist
6840 Eastern Avenue, N. W.
Washington, D. C. 20012

Dear Elder Baasch:

I here you are going to be comming to Puerto Rico for a visit soon. We are looking forward to meeting you again and here the messages you have for us.

What I am coresponding to you about really cannot wait tell then. The Therapist (meaning Physical Therapist) here at the hospital are beeing faced with a problem that we need good counsel on. There is a strong move on to form the Physical Therapists on the Island into a 'College'. The three of us here attended a couple of weeks ago the monthly meeting of our organization in San Juan. A good portion of this meeting was spent discussing the formation of this 'College'. The President's first remarkes were that this is a Union in the name of a 'College'. They are proposing to put this into law and force all to join in order to practice Physical Therapy here in Puerto Rico. In the discussion they felt with the new law they would be able to strike and use this as a means of obtaining their wishes.

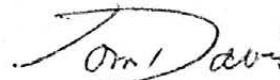

Enclosed is a copy of their first draft. I would like you to evaluate it and send me a response. I realize that you were not at the meeting so you could not get the verbal presentation of the matter. The three of us felt that it was well presented from the stand-point of a union organazer.

Thank you for your assistance in this matter.

I would be interested in receiving any additional information the White Estate might have concerning Unions othe than that found in Selected Messages Vol.2

We desire to do the Lord's will fully for we are in his service.

Sincerely yours,

Tom Davis
