Escondido, California

Dear Doctor

I am happy to pass along to you a copy of the letter which was written to you by Miss McEnterfer regarding Sister White's counsel when you inquired about your attendance at the University of Southern California.

Your other question had to do with a quotation something to the effect that "Those who eat flesh foods should not sit in councils." We have been unable to locate this particular statement, although there are others with which you are, no doubt, acquainted that are somewhat similar.

If you will begin near the bottom of page 133 in Counsels on Health, and continue to the top of page 134, you will find that the last sentence in that paragraph contains the implication which you suggested. Also, there is a statement in Counsels on Diet and Foods, paragraph 716, beginning at the bottom of page 401, which has the same general idea.

I am sorry that we cannot come any closer at present to the statement concerning which you inquired. I hope that this may be of some value to you.

Sincerely yours,

THJ:gj

T. H. Jemison, Associate Secretary
